LITTLE CHANGE APPARENT

NARROW MOVEMENTS DUE ONLY TO TRADERS' WHIMS.

Early Firmness, Due Mainly to Lack of Selling Pressure, Dis-

appears Before Close.

ing pressure than to any positive support by buying stocks. London also helped in a sympathetic way, but did nothing practical in the way of buying stocks. The London market has made a distinct response to the easy-money conditions and the investment demand there is reported to be decidedly improved. Reports of railroad earnings at hand to-day made a very poor showing, even Reading and Lehigh Valley making a poor comparison with last year's corresponding period, which was, however, one of large earnings. Wabash and Caundian Pacific showed even less favorable comparisons. The average of the decline in net earnings for March is thus expanding to a substantial percentage.

The high-priced coalers were inclined to

run off as easily as they have recently advanced. Stocks held rather firmer, how-

vanced. Stocks held rather firmer, however, and small engaged has been announced in the day. This brings the total engagements up to \$12,800,000, which is far in excess of any experts from New York for a single week heretofore. The record exports for a month stand at \$7,450,000 for May, 1894.

The money market was still unaffected by this heavy drain, but the dimensions of the movement had an effect on sentiment. To-day's engagements of gold will not figure in to-morrow's bank statement. Without them the earlier outgo of gold seems to have been considerably offset by the continued receipts of currency on balance from he interior and by the transfers from San Francisco on Japan account. The only price movements of importance were in specialties.

GAS STOCKS UP.

The local gas stocks moved up on rumors of closer association. Tennessee Coal was forced down on reports of reinstatement of old control in the property. Erie's poor March earnings continued to burden that stock. Amaigamated Copper seemed to be affected by the strength of the copper wire market. The advance in United States Rubber stocks was expiained. The heavy gold engagements had little effect on the exchange market. The unwonted appearance of J. P. Morgan & Co. as exporters caused some apprehension that none of the previous exports were on account of the Panama payments. The week's exports of wheat are pronounced the smallest in fourteen years. Reports of a syndicate to take the \$37.000.000 city bond issue indicate the prospect of continued expansion of the loan item of the banks statements.

Bonds were about steady. Total sales, par value, \$2.855.000. United States 2s advanced ½ and the new is ½ per cent on call.

erally Firm.

In yesterday's local stock market the feature was the strength of the traction issues. There seemed to be a sudden increase in the volume of the outside buying demand, the apparent impetus being the prospect of large World's Fair profits for the local transportation companies. Transit was well taken at \$12.12\frac{1}{2}\$ and \$12.15\$ and United Hallways preferred brought \$34.50, with \$35 hid for more.

Lincoln Trust also was strong at \$157. Central Coul and Coke common and National Candy common were the other active issues.

We want offerings of St. Louis City Bonds.

20,000 St. Louis County (Township) School 5%, 1921.

**MERGANTILE TRUST COMPANY** William Folay, Manager.

# SUMMARY OF ST. LOUIS MARKETS

20,000 St. Louis City 31/%, 1922.

Local sentiment as to grain futures again was builtsh. Though there was early weakness in other domestic speculative conters, St. Louis operators and the outsiders who traded through the commission-houses could not see anything but the bull side. Though the early advances were not maintained, the feeling was strong at the closs. The weekly reports of the Modern Miller and the statement sent out by Snow were regarded as unusually builtsh for this season. Shorts were the best buyers early in the session. Later there was some unloading by the longs, but this sort of selling was well met, and the net result was that only about half of the initial gains was neu-tralized. Heavy Argentine shipments and indifferent cables were about the only bear-Ish features. Locally the promised subsidence of the flood and some effect, but the actual conditions affecting the railroads had not been relieved and it was difficult to get grain to the elevators.

Corn was dull, but fairly strong, in line with wheat, until near the close of the session, when there was enough liquidation to shade a trifle off the previous day's figures.

July corn opened 1:054c off and closed 1-16c off. July outs closed the off.

Receipts of produce were moderate and prices of fruits and vegetables were gen-

Local securities were about steady. The best demand was for St. Louis Transit.

Yesterday's bank clearings were \$5,455,701, bulances \$752,455. Discount rates were steady between 5 and 6 per cent. Spot cotton was ic lower in the local market.

**GRAIN VALUES ADVANCE** ON DAMAGE REPORTS.

SHORTS RUSH TO BUY AT OPENING.

Coarse Grains Are Dull and Easy With Little Outside Speculative Support.

Wheat was again on the up-turn in yes-terday's local market. Early in the session the shorts rushed to cover. When this movement was over the longs threw a lot of grain on the market, but this had only the effect of neutralizing a portion of the previous gain. Crop damage reports and flood conditions were the main

factors.
